

## BUSINESS WORKSHOPS

Lasting sporting success is never achieved by chance, instead it requires dedication, hard work and the building of effective structures and systems which allow talent to flourish. Similarly, business success requires these same constituents to be in place. Through extensive research into successful sportspeople and organisations, All-Pro Performance have established systems by which these principles can be applied to build an effective business, effective leaders and effective employees. These systems build winners in

### BUILDING A WINNING ORGANISATION

In no field is winning as crucial as in sport. Sports teams live or die by their winning record, and so systems that produce winners are the lifeblood of sport.

Learn the secrets of winning sports organisation and coaches, and apply these to build a your own winning organisation.. From defining the vision, through planning and execution and finally to innovation and invention this blueprint will provide organisations with a formula for success.

### YOUR OWN PERSONAL BEST

Athletes are in a constant cycle of development, ever reaching for higher levels of performance. For success in any endeavour, this commitment to excellence is vital.

This workshop applies the tried and trusted formula of performance enhancement used by athletes in a form that can be utilised to enhance performance in any field of endeavour. For those seeking out higher performance or simply a happier healthier life, this workshop shows you how.

### THE MODERN LEADER

What makes a good leader, research from the world of sport and business has identified key areas that are crucial to effective leadership, yet few are aware of these ,and even fewer develop their ability in them. Strong and clear leadership is crucial for the success of any organisation, and the development of leaders is vital to the lasting success of any organisation.

This workshop presents a structure by which leadership can be enhanced by all
